Outlines & Expectations

Outline & Expectations

1. Appropriate Use of Resources

Information Communication Technology (ICT) is a wonderful tool for learning. The use of the ICT however, is a privilege, not a right and inappropriate use could result in the loss of this privilege. The Agreement applies to all devices that access the Internet and/or store information electronically.

2. Damage

Vandalism or damage to ICT, either deliberate or through neglect will result in cancellation of all privileges and the possibility of parents replacing damaged items. Vandalism is defined as any malicious attempt to harm or destroy equipment or data of another user, Primary School ICT hardware and software. This includes the transmission of computer viruses, theft of hardware and software.

3. Accessing Inappropriate Material

Students will not use the ICT to access material that is inappropriate, profane or obscene (pornography) that advocates illegal acts, or that advocates violence or discrimination towards other people. If a student mistakenly accesses inappropriate material, she/he should immediately inform the supervising teacher. This will protect the student against a claim that such access was intentional.

4. Chat Rooms / Social Networking/ News Groups / Messaging

Students are not permitted to use instant messaging or social networking on school equipment.

5. Good Cyber Citizenship

Positive online behaviour is the ability to develop positive, appropriate and constructive online relationships with peers and family in a variety of mediums.

Students are expected to abide by the generally accepted rules of network etiquette when using Emails or other messaging systems. These include:

- Be polite. Do not get abusive in your messages to others.
- Use appropriate language. Do not swear, or use any inappropriate language.

- Not revealing your personal address or phone number, or the address or phone number of the Primary School or members of the Primary School community.
- Not using the network in a way that causes disruption or harm to other users.
- Not using Primary School resources to spam or mass mail others.
- Not injuring the reputation of the school or those within the school community.
- Not using the Internet to harass or bully others.
- Not using the Internet to impersonate someone.
- Not use or knowingly access inappropriate digital images, audio and video.

6. Occupational Health & Safety

Emmaus Catholic Primary School encourages all users to read Tips for Laptop Users OH&S Policy. Additionally, all users should consider the following;

- When using the laptop, place it on a table never on the floor.
- Never place the laptop on your lap, as the transmission from the laptop may be harmful to sensitive organs.
- Sit at the correct height to allow your elbows to be bent at right angles and your wrists straight. Your hands and wrist must clear the desk and keyboard, with only your fingers touching the keys. Take a break every 30 minutes of use.

7. Storage of Work

Students are responsible for the careful storage and backing up of their own work. The Primary School accepts no responsibility for files lost or altered due to problems with our infrastructure or hardware. Hard drives (MacBook) or cloud storage (Google Drive) may be treated like school lockers in that Staff may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on their MacBook are private.

8. No Expectation of Privacy

The school retains control, custody and supervision of all computers, networks and Internet services owned or leased by the school. The school reserves the right to monitor all computer and Internet activity by students.

Students have no expectation of privacy in their use of school computers, including email and stored files.

9. Cyberbullying and Defamation

Online Bullying

Online bullying is bullying carried out through the internet or mobile devices. Online bullying is also sometimes called cyberbullying.

Online bullying can include:

- sending insulting or threatening messages
- posting unkind messages or inappropriate images on social networking sites
- excluding others from online chats or other communication
- inappropriate image tagging
- sharing someone's personal or embarrassing information online
- creating hate sites or starting social exclusion campaigns on social networking sites
- sharing unflattering or private images, including naked or sexual images
- assuming the identity of the another person online and representing them in a negative manner or manner that may damage their relationship with others
- repeatedly, and for no strategic reason, attacking players in online gaming.

For it to be called bullying, inappropriate actions online must be between people who have ongoing contact and be part of a pattern of repeated behaviours (online or offline). Single incidents or random inappropriate actions are not bullying.

One action – such as an insulting comment or an embarrassing photo – which is repeated through sharing and forwarding to others, can be called bullying if the individuals involved know each other, and have ongoing contact either on or offline.

Online bullying has the potential to have social, psychological and educational [impacts](#).

Bullying. No Way! 2020

Australian defamation law dictates that a person is guilty of defamation when:

*“A person who ‘publishes’ and assertion of fact or a comment that:

trade or business reputation of an individual or a company: Exposes
them to ridicule; or cause people to avoid them.”*

Emmaus Catholic Primary School recognises that the majority of cyberbullying cases occur outside of its controlled network. However, to ensure that students and parents are aware of cyberbullying and the correct actions to take, this policy includes protection for its own name, crest, students and teacher.
